

CapTel Telephone: Acceptable Use Policy

The CapTel telephone is intended for use by people with hearing loss. People who do not require captioning support for their telephone communications should only use a CapTel telephone with the CAPTIONS feature turned off. The CapTel phone is intended to facilitate telephone communication between two or more parties on a telephone call. Any other use of the phone is considered a violation or misuse of the service.

In purchasing a CapTel phone, you acknowledge that it is intended for use by a person with a hearing disability and you agree that it will be used appropriately as a telephone. Use of the CapTel phone for any other purpose is prohibited.

CapTel 800i and WebCapTel are designed for use within the United States (including Hawaii and Alaska). International calling is not supported.
